

THURSDAY EVENING, NOV. 5, 1908.

BLAMING the women of the Fort Hamilton army post for the alleged demoralization of Mrs. Claude A. Hains, Maj. John P. Hains, as heretofore stated, has come to the defense of his brother, Capt. Peter C. Hains, mayor of William E. Annis. In connection with the "diary letter," of Mrs. Hains to her husband, in which she wrote jocularly of "bumming" expeditions and "boozing" parties with wives of army officers at Fort Hamilton, the major's recollections against these women of the post is expected to bring about some startling disclosures. "All the time that Peter was away," says the major, "these women at the army post encouraged this misguided girl to do wrong." These outrageous scandals at the army post are becoming common and disgusting, so much so that a self-respecting father would hesitate before giving his assent to this daughter entering one—even though she be the wife of an officer.

Mrs. Logan, wife of the late General John A. Logan, in defending her daughter in the latter's suit for divorce from Col. Tucker, whose affairs with women, foreign and domestic, added another recent scandal in army circles, says "things go on at military posts that would not be permitted in civil life." And she speaks whereof she knows. But these "things" will continue to "go on" until there is a radical reform in army life and the sooner this reform begins the better it will be for the peace and dignity of the country. It is common report that many if not all of the army posts at home and in the new possessions, so far as social life is concerned, are hot beds of sin and corruption, men and women married and single, engaging in shameless orgies.

So RICHMOND is to have a "new party" to make a new Richmond and a new south, but the "effort" is to be made by disgruntled men who know that they will never receive honors at the hands of the democratic party. It is to be regretted that if these men are so dissatisfied with Richmond conditions they do not away and leave it. Of these men the Richmond Journal says:

It is reported that those former Richmond democrats who supported Taft Tuesday will form a coalition with the republican party, or stand ready to accept the aid of the republican party to control local elections. Nobody cares what these independent citizens do, so long as they do it like a man. If they will just stop calling themselves democrats, and announce that they are affiliated with no party, the respect of the community will be gained, and that's worth having. The trouble with this class of our citizens is that they are afraid to cut loose from the party and announce the severance of relations. To do so would be to cheat themselves of their only source of strength—the feeling, or attempted feeling, of some thoughtless democrats into the belief that they are fellow party men. As we said, this minority party proposes to dictate the politics of Richmond, and to defy the democratic organization. Speaking for 4,123 democrats who voted Tuesday, the Journal announces that the challenge is accepted.

A DISPATCH from Washington says: "The collapse of Mr. Gompers' effort to array organized labor solidly and to deliver it, as in a bag, was perhaps the feature of the election that caused the greatest satisfaction in Washington. Mr. Gompers' failure as a politician seems now to be assured." It is said that an attempt will be made to depose him as the labor leader. It is hoped that the attempt will succeed. When labor organizations enter politics they lose their influence and should do so. Mr. Gompers hurt the democratic party probably more than any one man in the country, his radical views and utterances driving many conservative men from their intended support of the ticket.

MR. ROBERT GARRETT declared in Baltimore yesterday that while he would continue to oppose Congressman Talbot, he did not wish to be a candidate for Congress again. Mr. Garrett knows when he has had enough.

TAFT's popular majority over Bryan is estimated at a little over 1,000,000. Roosevelt's popular vote over Parker four years ago was 2,545,515. These figures are significant.

THE Roosevelt administration will turn over to its successor a heritage of increasing debt and deficit. The addition to the public debt for the month of October was \$8,511,975.

#### From Washington.

[Correspondence of the Alexandria Gazette.] There was a large increase in naval courts martial during the past fiscal year, 16 naval and marine officers, and 1,556 sailors, and 274 marines having been tried for breach of the naval regulations, according to the report of the Judge Advocate General of the navy, made public today. Desertion and absence without leave continue to be the principal offenses charged against both officers and men. Drunkenness was charged against six officers and 75 enlisted men. A total of 1,054 enlisted men were tried for desertion.

#### Virginia News.

Rev. W. E. Callender, of Laurens, S. C., has arrived in Falls Church, and assumed charge of the Episcopal Church there as its rector.

A marriage license was issued in Washington yesterday to Samuel Edwards and Pearl M. Strothers, both of Rectortown.

Mr. James F. Davis and Miss Chennell, daughter of M. M. Chennell, both of Spotsylvania county, were married at Fredericksburg yesterday by Rev. R. William.

Mr. George Lowe, sixty-four years of age, while painting the storehouse roof of Mrs. Charles Mankin, at Falls Church, fell ten feet and sustained bruises about his hip, and fractured a bone in his right arm.

The eighteenth annual meeting of the United Women's Auxiliary of the Episcopal Church began in St. James Church in Warrenton yesterday morning. Mrs. Mary S. Nelson, president of the local chapter, is presiding. Bishop Gibson, of the Virginia diocese, made the leading address.

Isiah Roe, son of Deputy Sheriff Roe, of Gore, Frederick county, had his left arm torn off and face cut and burned yesterday by an explosion of dynamite, which he was thawing at a traction engine. He was also injured internally by the force of the explosion, and it is said, cannot recover.

George Grigler, sixty years old, a farm hand of Culpeper, was thrown from a buggy in a runaway near Boyce, Tuesday evening, an falling on a pile of rocks he sustained a severe fracture of the skull and internal injuries. John Hibbard, of Boyce, was also thrown out, and was badly cut and bruised and internally injured. Grigler is in a dying condition at Dr. Turner's Hospital, in Berryville.

Messrs. Davis & Davis, Washington patent attorneys, report the grant, this week, to citizens of this state, the following patents: R. E. Barry, of Ash Grove, brake attachment for hay-wagons; P. W. Carey, of Norfolk, horsehoe; S. J. Evans, of Roanoke, O. E. Evans, administratrix, machine for canceling letters; L. J. Jones, of Richmond, centering device; D. Margolis, of Norfolk, bullet; O. Meyer, of Richmond, electrolyte for electroplating.

News has reached Roanoke of a shooting affair in Patrick county, in which James S. Leake, a prominent citizen, was killed, and Nathan Taylor, a neighbor, is said to be mortally wounded. The men, who were neighbors, met at Penn's store on Monday, and after an exchange of words both began firing. Taylor with a shotgun, at close range fired on Leake, shooting him through the lungs. Leake was 50 years old and leaves a family. Taylor is twenty-one years old and was shot by Leake as the latter fell. He will not recover.

#### THE RECENT ELECTION.

Further returns in the various states make no material change in the general result, though results as first reported are changed in many instances.

The most interesting feature of the election has been the close vote in an unusual number of cases, several states declaring for Taft for president by pronounced majorities, and electing democratic governors. Factional differences which cropped out during the campaign were responsible for this situation.

The composition of the next House will be—republicans, 218; democrats, 173.

Bryan carried his own state, Nebraska, by a sweeping majority and the democrats elected 5 of the 6 congressmen. The legislature is overwhelmingly democratic.

A radical change in Indiana's representation in the national House of Representatives was the most striking feature of Tuesday's election. The latest official returns, complete, gives the democratic party 11 members and the republicans two. This is a gain of seven members for the democrats. William H. Taft carried the state for president, according to incomplete returns, by about 8,000. Thomas R. Marshall and the entire democratic state ticket are probably elected by a plurality of about 15,000. The legislature is likely to be democratic by a small margin. This will result in the election of a democratic successor to Senator Hemenway. Estimated pluralities by counties, based on incomplete returns, indicate that Bryan and the entire democratic ticket at Bryan and the entire democratic ticket at Bryan, headed by John F. Smith, for governor, carried Colorado with pluralities in the neighborhood of 5,000. The democrats probably will control the legislature.

Judge Harmon has been elected governor of Ohio by 20,000 plurality. Taft's plurality in the state is 50,000. The legislature is in doubt.

#### MACK TELLS OF NEW PLANS.

Declaring that the party is more united today than it has been in many years; that Mr. Bryan was defeated by what he claims was misrepresentation to the effect that his election would hurt business interests, Chairman Mack, of the Democratic National Committee, yesterday afternoon issued a statement in which he announces extensive plans to advance the party's interest during the next four years.

Mr. Mack avers he has no apologies to make relative to the republican victory and pays a high tribute to Mr. Bryan, saying he made "the most magnificent fight ever waged by a candidate."

Chairman N. E. Mack, issued a statement last night, in which he declared that he did not believe Mr. Bryan would again be a candidate for the presidency. He said he believed that the Nebraska might be a candidate for the United States Senate in 1911 provided the legislature of his state is democratic in that year, when the first vacancy will occur.

Mr. Mack was asked if he thought the South would be recognized in the national convention and permitted to name a candidate from that section of the country.

"The most honorable man will be nominated," he replied, "irrespective of whether he comes from the north or the south, the east or the west. Everything will depend upon his availability and other conditions, which will develop in the next four years."

#### How to Treat a Sprain.

Sprains, swellings and lameness are promptly relieved by Chamberlain's Liniment. This liniment reduces inflammation and soreness so that a sprain may be cured in about one-third the time required by the usual treatment. 25 and 50 cent sizes for sale by W. F. Creighton & Company and Richard Gibson.

#### Saunders Re-elected.

[Special Dispatch to the Alexandria Gazette.] Richmond, Va., Nov. 5.—Returns from the Fifth district today show that Congressman Saunders is re-elected by a bare majority of 79. The republicans last night claimed the district. That Saunders' majority is no greater is the surprise of the Virginia campaign. It is taken by many here to mean that Governor Season will be the democratic nominee for Congress in his old district two years hence. His majority in the Fifth when he last ran for Congress in 1904 was more than 4,000.

#### Today's Telegraphic News.

**Bryan Congratulates Taft.** Lincoln, Neb., Nov. 5.—William J. Bryan today sent the following telegram to Judge William H. Taft, his successful competitor in the presidential race: Hon. William Howard Taft, Cincinnati, O.: Please accept congratulations and best wishes for the success of your administration. WILLIAM J. BRYAN.

#### Revival of Business.

New York, Nov. 5.—Dagoberto Pittsburg says particularly great activity is manifest in that city. The United States Steel Company has agreed to cut the price on steel rails from \$28 per ton to \$24 and the independent mills, it is said, have agreed to the cut.

For this concession the railroads have agreed to place at once their orders for a steel to their lines in good condition. President McCreary, of the Pennsylvania Railroad, is said to be already preparing orders.

The Pennsylvania Railroad in Pittsburgh, today, put on a force of men in the repair shops for the first time in a year. Ten thousand cars are reported under repair there. They will be rushed out.

In the American Nail and Bolt Works an increase of 20 per cent. in the wages of all workmen was announced today. A mass of orders are to be filled immediately.

Throughout both New York and New Jersey there is a revival of business, and thousands of men are returning to work on full time. At Newark, N. J., the Clark O. N. T. and Mill End Thread Works will put all employees of full time after Saturday, and in Plainfield ten big metal factory will resume activity at once.

Boston, Nov. 5.—The directors of the Sagamore Cotton Mill in Fall River have submitted to the stockholders a proposition to pay in \$300,000 in new capital for the construction of a new plant. The employees of the big Federal Shoe Company of Lowell have been ordered to report to work next week after a long lay off. The National Rubber Company announces that it will resume full time at its large plant in Boston, R. I., where a five day schedule has been followed for the past year.

Lynn, Mass., Nov. 5.—General confidence in a revival of business, especially in Lynn's great enterprises, shoe manufacturing, was expressed today at the meeting of the Manufacturers' Association. Secretary Meyer said that the shoe business will start up immediately, and that he looks for a prosperous year.

General Manager Fish of the General Electric Company said he looked for more prosperous conditions, and that while he had not received the schedule of orders for this month, he had no doubt that business would be better in the near future.

Harrisburg, Pa., Nov. 5.—A two hundred-thousand-dollar shoe factory is to be built at once near Middletown. The factory will employ over five hundred skilled workmen.

#### Reopened Negotiations.

Constantinople, Nov. 5.—Alarmed at the prospective alliance of Turkey, Bulgaria, Serbia and Montenegro, which is likely to be formally announced at any moment, Austria today reopened indemnity negotiations with Turkey.

It was said here in much better terms than the first. It is considered certain that the present negotiations will come to a satisfactory conclusion without an interruption.

Belgrade, Nov. 5.—Serbia today demanded from the Austrian authorities the surrender of a Serbian named Manu, a switch, captured by the Austrians while swimming toward an Austrian gunboat in the Danube river. The Austrians say that Manu was sought to blow up the gunboat. This is denied by the Serbians. Austrian and Serbian soldiers are now fortifying opposite sides of the river. The national assembly is still hopeful of avoiding a war; the government is preparing for the worst. Sixteen thousand troops are now encamped around the city. The bulletin in the national banks and the office of the general staff of the army will be removed to Kragujevac.

#### The A. O. Brown & Co. Failure.

New York, Nov. 5.—That the failure of the bankrupt firm of A. O. Brown & Co. was more than complete has been revealed by the filing of \$3,500,000 of claims with Charles E. Littlefield, its receiver. So far only \$400,000 of the \$4,000,000 assets the firm claimed has been collected, and it is doubted if the remainder will ever be realized.

A. O. Brown's hearing will be continued next Wednesday. G. Lee Stout, an aged member of the firm, when examined, stated that he had put \$100,000 into the Brown firm when it was organized, but had later withdrawn his capital. Stout declared he had no idea that the firm was unsound and that he had taken no part, actively, in its business. He said he thought the firm's participation in the Whitney syndicate had been immensely profitable, whereas it was a total failure.

#### More War Talk.

London, Nov. 5.—From reliable sources it is reported today that France has made tentative inquiries of the English foreign office as to the aid France might expect of England in the event of a clash between France and Germany, upon the Casablanca affair.

England is not hurrying a reply. The foreign office believes Chancellor von Bethlow raised this issue merely to distract Germany's attention from the Kaiser's interview in which he took credit for aiding England to whip the Boers. It is believed that after von Bethlow has kept the discussion active for a few days Germany and France will come to an agreement to arbitrate.

#### Killed Son and Wounded Wife.

Buffalo, N. Y., Nov. 5.—John Hagen, 50 years old, proprietor of a small hotel near the Lackawanna Steel Plant, south of this city, shot and instantly killed his son, George, aged 17, and dangerously wounded his wife, Carrie, at ten o'clock this morning. Hagen then attempted suicide, but was overpowered and taken into custody. It is believed the man is insane.

#### Keefe to Oppose Gompers.

Tetroit, Mich., Nov. 5.—Close friends of Daniel Keefe, president of the Longshoremen's Union, and a vice-president of the American Federation of Labor, say that Keefe will be a candidate for re-election to the American Federation presidency before the Denver convention. Keefe, it is stated, will be supported by the element which opposed President Gompers' advocacy of Bryan's election. This element will seek to have Gompers retire gracefully on the ground that he is too old for the strenuous duties of the position.

#### LATEST ELECTION RETURNS.

MISSOURI. St. Louis, Nov. 5.—Missouri's political status following Tuesday's election is still in a "show me" state. Until complete figures are in, the exact result will not be known. Hadley has been elected governor by a majority that will probably exceed 15,000. Today early, complete official and unofficial returns from every county in Missouri give Taft the state by a plurality of sixty-seven. The official count may be required, however, to determine.

The republicans claim a majority in the legislature of three on joint ballot, the democrats four. Five and perhaps six republican congressmen have been elected.

Senator Stone has a lead of nearly 16,000 over Folk for the democratic nomination for senator. Lieut.-Governor McKinley is leading Kerns for the republican nomination for the Senate by almost thirteen thousand.

OHIO. Columbus, O., Nov. 5.—Governor Harris (repn.) and republican Steve Calkins Williams today conceded the defeat of Harris for re-election by Judson Harmon (dem.) by a plurality in the neighborhood of 20,000. Taft's plurality in Ohio will run from 50,000 to 60,000. The legislature is republican beyond all dispute.

The republican leaders are shaping a programme to prevent Gov. Harmon appointing a U. S. Senator to succeed Foraker, by having Gov. Harris call the legislature in extra session before he retires from office to name a senator to succeed Foraker.

Cleveland, O., Nov. 5.—Congressman Burton will begin at once a campaign for U. S. senator from Ohio. Arthur I. Vorys, Taft's manager in Ohio, is regarded as a formidable rival to Burton, as Charles P. Taft of Cincinnati may be a candidate for Senator.

#### MARYLAND.

Baltimore, Nov. 5.—Revised returns from the counties received up to 11 o'clock today increase the estimate for Taft from last night's figures by ten votes. On the face of the unofficial returns up to this hour with portions of Dorchester county missing Taft has a plurality in the state of 145.

The Baltimore News' complete unofficial returns give Maryland to Bryan by a small majority, possibly under 100. The official count began at noon.

#### INDIANA.

Indianapolis, Ind., Nov. 5.—The republican state committee concedes all state offices to the democrats. Eleven democratic congressmen are elected and the legislature is democratic by eight on joint ballot. Democratic aspirants for the Senate are L. Earl Sack of Franklin, B. N. Shively, of South Bend and John W. Kern. The Taggart machine is for Kern.

#### NORTH DAKOTA.

Fargo, N. D., Nov. 5.—The North Dakota election result is settled in Taft's favor. It may take the official count to decide whether C. A. Johnson (repn.) or John Burke (dem.), has been elected governor.

Incomplete returns now indicate Burke's election by a small plurality.

#### NEW JERSEY.

Paterson, N. J., Nov. 5.—William Hughes, democrat, was elected as representative of the Sixth congressional district which includes Passaic, Bergen and Sussex counties. Hughes rival was Foxhall (repn.).

Hughes' plurality in the entire district is over 1,300.

#### WEST VIRGINIA.

Wheeling, W. Va., Nov. 5.—Taft has carried West Virginia by over 20,000, according to the latest returns from all the counties in the state. The estimated pluralities are: Taft 20,459; Glasscock (rep.) for governor, 7,683.

#### NORTH CAROLINA.

Raleigh, N. C., Nov. 5.—The republicans elected two congressmen from North Carolina—Cowles in the Eighth district and Grant in the Tenth, and claim that Morhead defeated Brooks, his democratic opponent, in the Fifth district.

#### COLORADO.

Denver, Col., Nov. 5.—Only ten of the fifty-two counties in Colorado have made complete returns. Scatterfig returns from others show 5,000 to 6,000 Bryan plurality and Shafroth (dem.) elected governor by 8,000.

#### Trial of a Priest.

Rutland, Vt., Nov. 5.—The trial of Rev. Francis Crociata, the Italian priest, for alleged connection with the murder of Accorito Santoro, an Italian, was begun in the county court this morning. Father Crociata has been in jail since indicted on the sixth on the charge of being an accessory after the fact. Later, State Attorney R. A. Lawrence, of this city, filed an information, stating the additional charge of assault. This information was today amended so that the priest went to trial on the charge of conspiracy and assault. The accessory charge has not yet been quashed.

The murder, which resulted in the arrest, was effected by the aid of Anna Black, aged 18, an Italian girl, who has confessed that she lured Santoro to a lonely spot where Vito Turiciana and Vincenzo Gioia killed him. It came out during the trial of Gioia and Turiciana, under life sentence, that the assault at the outset was intended as a chastisement and was planned in the presence and sanctioned by Father Crociata. The clergyman's brother, Gaspar Crociata, who was arrested, turned state's evidence. The Black girl is awaiting trial.

#### HISEN IS SATISFIED.

Thomas L. Hise, independence party candidate for the presidency, issued the following statement at Springfield, Mass., yesterday, from his home in West Springfield:

"I was pleased to receive such a large vote in my home town. Returns from the country at large are as yet so incomplete that it is impossible for us to know just how many votes this new party polled. The growth of sentiment towards a new party is necessarily slow. Because of our lack of political organization throughout the nation and also because of our lack of funds we were unable to reach any large proportion of voters in this one campaign.

"Practically without a campaign we have surprised gains in Vermont, New Hampshire, and other states and in view of the fact that all other political parties in Massachusetts were united we have held our own in this state. The first local convention of the party was held in July. In a few short months it has demonstrated that there is no state in the union where its principles has not supported."

No false pretense has marked the career of Ely's Cream Balm. Being entirely harmless, it is not responsible like the catarrh snuffs and powders for minds shattered by cocaine. The great virtue of Ely's Cream Balm is that it speeds and completely overcomes nasal catarrh and hay fever. Back of this statement is the testimony of thousands of a reputation of many years' success. All druggists, 50 cents, or mailed by Ely Brothers, 55 Warren St. N. Y.

#### ADVERTISING PAYS.

It is gratifying to record the fact that advertising in our home paper pays. About ten days ago I advertised to the amount of \$1.50 in the Gazette in regard to the George Washington Park lots in section two. The direct result has been the sale of three lots, two in Alexandria and one in Outa. The following letter is self-explanatory and from a young Alexandrian, Mr. J. E. Norris, now located as the representative of R. G. Dun & Co., in Havana, who writes:

"I have just read the notice in the Alexandria Gazette about the George Washington Park, to the effect that there are a few lots left unsold in section two. I kindly send me maps and information also details as to discounts for cash or shorter payments. Since you state section 2, I infer that there was a section 1.

"Please put me down for one of these lots and if any of the former remain, so advise me; terms, etc."

"Should the distinguished gentleman from Nebraska be successful at the polls, you can count on me for two or three."

"Wishing for you success, which such a venture as that now being exploited by the association of which you are the secretary merits, I beg to remain."

It will thus be seen that by this small expenditure sales to the amount of \$600 were made. There remain but few lots to be sold in section 2 and all interested should secure one while they last.

#### NEW YORK STOCK MARKET.

New York, Nov. 5.—The market continued strong and active at the opening with further advances. The higher price levels resulted on upward movement yesterday and further gains this morning induced continued profit-taking and many of the room traders, thinking the advance had gone far enough, put out large lines of short and tried to force a reaction. Stocks continued to be freely supplied all through the forenoon, but the demand from outside continued brisk and the meeting of the bids and offers at the market kept it about evenly balanced.

#### King to Visit Northern Portugal.

Lisbon, via Badajoz, Nov. 6.—Disregarding threats and warnings, King Manuel will leave for northern Portugal Sunday to spend two weeks to make himself popular in a section of his country where republicanism is gaining ground dangerously. Queen Amelia, has begged the young ruler not to risk his life in such a venture. The newspapers urged a postponement, but the king will not listen. The cabinet members have told him that his appearance in northern Portugal is imperative as a possible check to the rising wave of republicanism. Great preparations are being made to safeguard the king.

#### A CURIOUS PLEA.

That Herman Billek, convicted of the murder of several members of the Venz family, is already dead in the eyes of the law was the plea set up, among others, by Attorney Hinckley before Judge Barnes in Chicago yesterday in an endeavor to save Billek from the gallows. Judge Barnes had set yesterday for passing sentence on the prisoner, but in the light of the arguments presented postponed the matter until November 17.

Billek, after exhausting his defensive hopes in the state courts, was sentenced to be hanged last summer. The stay of execution came, but on that day the United States Court took a hand in the case, and Billek was given leave to appeal to the Supreme Court of the United States. The state authorities, although the order of execution had not been rescinded, made a move to carry out the sentence of the State Court pending action by the high court at Washington. That court found that it had no jurisdiction, and the case came back to Judge Barnes for resentence. It is now claimed that in the absence of any order rescinding or postponing the previous sentence of death Billek, in legal authority, is already dead, and hence cannot be sentenced to pay any penalty whatsoever.

#### News of the Day.

The price of steel rails has been reduced from \$28 to \$24 a ton. Chicago yesterday experienced the first snow of the season.

A dispatch from Rome says that the election of William H. Taft to the presidency of the United States has produced general satisfaction in that city.

Fire, which started in the basement of the dextre shop of the Victor G. Biedre Chemical Company, manufacturers of inks, etc., Canton avenue near Carroll street, Baltimore, destroyed the entire building about 2:30 o'clock yesterday afternoon.

A fire at Pembroke, Ont., yesterday caused half a million dollars' loss in the business section of the town. Starting in the National Manufacturing Company's foundry and fanned by a gale, the flames were driven down both sides of the principal business street to the river bank.

The Court of Appeals of the District of Columbia yesterday dismissed the appeal of Dr. Edward Leon for a new trial. The appellant is under sentence to serve a term in the penitentiary for criminal operation. It is probable the lower court will execute the judgment against the defendant in a few days. Dr. Leon who had been out on bail, was surrendered by his bondsmen late yesterday afternoon and placed in jail.

Ex-president Tomas Palma died last night at Santiago. Tomas Estrada Palma, the first president of the Cuban republic, was born in 1835 in Bayamo, in the eastern part of Cuba. At the time of the insurrection of 1895, which resulted in the "ten years' war," Palma joined Gen. Maceo and Cespedes, the two Cuban insurgents. He was a representative in the Chamber of Deputies in the provisional government, later on was secretary of state, and then became president.

#### SCARED DEER STOPS MILL.

A frightened deer dashed into the rolling mill plant of the Algoma Steel Company at Sault Ste. Marie, Mich., yesterday, and leaped into a hole which were turning out steel rails. As a result 1000 men were idled several hours. A buck and a doe emerged from the river near the plant and wandered about the yards greatly interested in the signs of human enterprise. When a yard engine came steaming by the buck deserted his companion and plunged into the river again, but the doe, trembling with fear, clung to the tracks and leaping over the heads of the stricken workmen. She landed on the steaming rolls and was so badly injured that she had to be killed.
